DevOps & Cloud: Docker · Azure · Azure DevOps · CI/CD Pipelines · Git · GitHub

Other: Python · Django · FastAPI · PDF generation (iText / QuestPDF) · Swagger / OpenAPI · Agile / Scrum

PROFESSIONAL EXPERIENCE

Programmer Analyst — Full Stack (.NET / C#) | DGII (Dirección General de Impuestos Internos) 2022 – Present

Remote · Cross-functional team (5 devs + 1 PM) · Biweekly Agile sprints · Mission-critical systems used by hundreds of thousands of taxpayers.

- Design and ship **REST APIs and back-end modules** in **ASP.NET Core (C#)** processing millions of fiscal records over **SQL Server and Oracle**, with Entity Framework Core, ADO.NET, and PL/SQL.
- Led the **migration of a legacy VS.NET system to ASP.NET Core 8** applying **Clean Architecture, CQRS, and SOLID**, secured via API Key authentication and fully documented with **Swagger / OpenAPI**.
- Architected and deployed **containerized services with Docker and CI/CD pipelines on Azure DevOps**, reducing deployment cycle time and standardizing release practices.
- Built **Python automation pipelines** integrating with Oracle databases that **reduced manual data processing time by 70%** and eliminated human error in large-scale image and document loading.
- Write **unit and integration tests** (xUnit, in-memory EF Core), conduct **code reviews**, and collaborate with DBAs, QA, and business analysts to translate fiscal regulations into technical specs.

Software Engineer (Python / Full Stack) | Patridge Consulting (U.S.)

2021 – 2022

- Delivered web solutions in a **fully remote, English-language, async environment** with a U.S.-based consulting firm, building Python/Django services and front-end templates for client business processes.
- Worked in a small Scrum team (2 devs + 1 PM) across time zones, maintaining clear written communication and consistent sprint delivery.
